

July 30, 2002

**Tenth Annual Fish Screening and Passageway Workshop
August 26-29, 2002
Challis, Idaho**

Sponsored By
Fish Screening Oversight Committee
&
Columbia Basin Fish & Wildlife Authority

Hosted By
Idaho Fish & Game Anadromous Screen Program

The 2002 workshop is designed primarily to benefit craftsmen, welders, equipment operators, and maintenance workers. The presentations will be focused on fabrication techniques, safety, low impact construction, innovative solutions to existing screens, new design concepts for small diversions, and headgate/screen combinations not requiring bypass systems. Each participating group is encouraged to bring a new design for evaluation consisting of a self cleaning headgate/screen combination meeting NOAA Fisheries Juvenile Screening Criteria with a capacity of >1cfs and <3cfs. An award will be given for best design.
