

# 2013 Pacific Northwest Fish Screening and Passage Workshop

---

## First Call for Presentations

We invite you to Montana as the Fish Screen Oversight Committee convenes the 2013 Pacific Northwest Fish Screening and Passage Workshop in Missoula, September 17-19, 2013. The 2013 workshop represents the first time the meeting has been held in Montana. Missoula provides an outstanding location for technicians, engineers, and shop staff to share their experiences developing, installing, and maintaining fish screens and passage structures. In addition, Missoula is an ideal base for a personal or family vacation with many outdoor experiences within a couple hours. We encourage everyone to enjoy Missoula and Montana before, during, and after the workshop.

The FSOC is pleased to announce a call for oral presentations for the 2013 Pacific Northwest Fish Screening and Passage Workshop. Representatives from state, federal, tribal, and private entities interested in providing a presentation focused on fish screening and passage are encouraged to participate.

Oral presentations are limited to 20 minutes: a 15-minute presentation with 5 minutes for speaker introductions and questions. For select cases, two time slots (for a total of 40 minutes) may be considered. All talks are expected to be delivered as PowerPoint presentations.

If you are interested in providing a presentation, please contact Mark Lere at (406) 444-2432 or [mlere@mt.gov](mailto:mlere@mt.gov).
